Long-Term Substitute Teacher – Science – Biology classes (Posted October 9, 2026)

- **Start Date:** February 1, 2027 → **End Date:** May 5, 2027

Job Overview

Purcell Marian is seeking a dynamic, mission-driven Long-Term Substitute Teacher to cover a temporary vacancy in our Science department. The ideal candidate will bring passion for teaching, strong classroom management skills, and a commitment to supporting student success. This temporary position will cover extended leave for a faculty member.

Requirements:

- Teach courses to students as part of the planned curriculum.
- Deliver engaging, standards-based instruction that fosters student learning.
- Implement lesson plans and assessments in alignment with curriculum goals.
- Create a supportive and structured classroom environment.
- Communicate regularly with students, parents, and colleagues regarding student progress.
- Collaborate with other faculty and staff to support the school's academic and community mission.
- Fulfill supervisory duties and responsibilities as required.

Qualifications:

- Bachelor's degree in Education, Mathematics, Science, or related field required.
- Valid Ohio teaching license (or substitute license) required.
- Experience teaching at the high school level preferred.
- Strong communication, organizational, and classroom management skills.
- Commitment to Catholic education and the mission of Purcell Marian High School.

Please send a cover letter and resume to info@purcellmarian.org. Purcell Marian is focused on inclusivity and developing a diverse team.
